PROPER DISPOSAL OF THIS PRODUCT (WASTE ELECTRICAL AND ELECTRONIC EQUIPMENT)

(Valid in the European Union and other European countries with waste separation)

This symbol on the product, or the documents accompanying the product, indicates that this appliance may not be treated as household waste. This is to avoid environmental damage or personal injury due to uncontrolled waste disposal. Please dispose of this product separately from other waste and have it recycled to promote sustainable economic activity.

FEATURES

- Solid durable construction
- Stable heavy duty aluminum diecast base
- Lightweight construction
- Interchangeable colour ring

DESCRIPTION

The SP 5211 is a classic tripod speaker stand made of strong but lightweight aluminum tubing with black powder coating. It has a 50 kg load capacity and a maximum height of 195 cm. The redesigned, extremely durable mounting of the support feet is made of aluminum pressure die-casting. The steel cuff of the height adjustment is virtually indestructible and ensures additional stability. A safety stud locks the 35 cm, strong extension tube. The ergonomic buttons on the locking screws are made from highly-resistant ABS with a non-slip soft-touch coating made of thermo-plastic for convenient operation. The SP 5211 is delivered with an additional set of black coding rings; additional rings are available in many different colours for distinct personalisation.

SPECIFICATIONS
